## ABOUT ACL

Ashwell Contracts Ltd (ACL) was founded in 2000, and has built up a reputation as a creative kitchen design, supply and installation consultancy, who offer experienced and professional advice on all aspects of kitchen design.

Knowing what new products and trends are coming to the market is essential to our business, giving our customers the best product and design know-how available.

We work alongside interior designers, property developers, architects and private individuals to design and install contemporary, traditional and innovative kitchens that impress any end user!

Our mission is to create the perfect kitchen solution for our clients, and by personally managing each kitchen installation right through to the finished product we ensure customer satisfaction.

If you are interested in discussing any project or arranging a visit to our showroom, please don't hesitate to get in contact with Stephen, our Sales Manager, who will guide you through the choices available to you.

## OUR PROCESS

### CONSULTATION

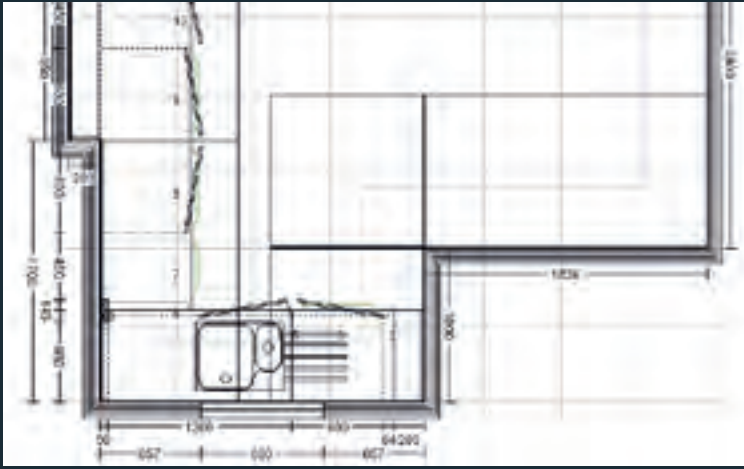

Our team is always happy to discuss your ideas and options for your kitchen projects. Using our years of experience we are able to offer our expert advice on the best ranges, appliances and accessories that will work for your budget and taste.

### DESIGN

Using the information you send us, we will design your kitchen using ArtiCAD's industry leading software. Generating high quality plans and 3D renders, you'll be able to visualise how your kitchen will look and suggest any changes to be made.

### FITTING

Once you're happy with the design of your kitchen, we will arrange for our fitters to make your design reality. Martin, our Project Manager, will ensure that your needs are met and that timescales and logistics are effectively communicated and realised.

## OUR SHOWROOM

Our showroom is based in Bygrave, near Baldock in Hertfordshire. Please get in touch to arrange a visit.

**LUXURY RANGE**

# 1909

1909 is a collection of classic painted timber kitchens, adapted and constructed to meet the aesthetic and functional demands of the 21st century. With its timeless interior characteristics, 1909 has been developed to suit any style of home.

- Solid timber doors
- In-frame shaker, ovolo or slab designs
- 22mm/24mm door thickness

## PAINT-TO-ORDER COLOURS

White	Dove Grey	Ives Blue	Partridge Grey	Sage	Cashmere
Chalk	Silver Grey	Cadet	China Blue	Olive	Dry Rose

# LICHFIELD

Lichfield doors have a narrow frame and a sleek j-pull handleless design. The balance of a modern design and a rich natural palette creates a unique space.

- J-pull handleless doors
- 20mm door thickness
- Sanded, stained, matt painted (grained) finishes

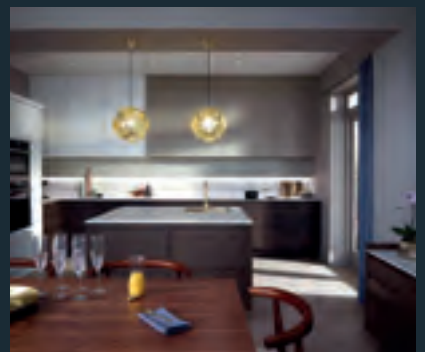

## STOCK FINISHES

Sanded

Espresso

# PORTER

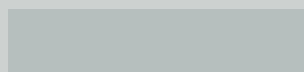

An exceptional choice for handle or handleless kitchens is the Porter range which features simple lacquered slab doors. A handleless trim extends around corners as well as on islands and peninsulas giving you a seamless elegant look.

- Lacquered slab doors
- 18mm door thickness
- Matt or gloss finishes
- Choice of 5 handleless rails

## STOCK COLOURS

White

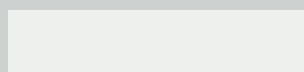

Dove Grey

Hartforth Blue

Cashmere

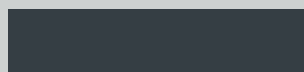

Porcelain

Silver Grey

Dust Grey

Graphite

## REMO

The Remo door range is minimalistic with j-pull handles and sleek modern lines which are carried consistently around the room. Its simplicity creates a contemporary feel which can easily be complemented by a range of colours, textures and worksurfaces.

- Lacquered j-pull slab doors
- 22mm door thickness
- Matt and gloss finishes

### STOCK COLOURS

Graphite

# ZOLA

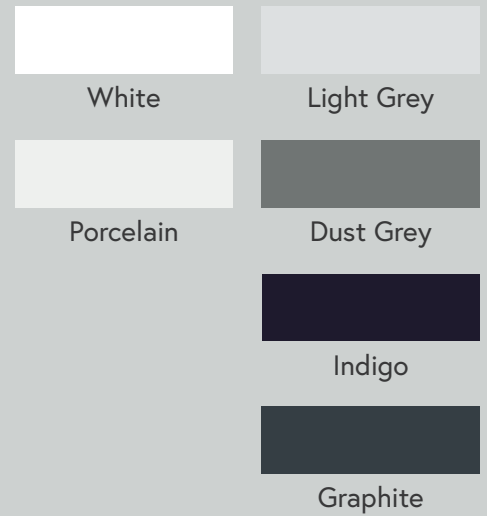

Zola is characterised by visually stunning slab doors. Zola Gloss provides a mirror-like finish that will complement any space it occupies. Zola Matt and Soft-Matt also create a canvas in which to inject personality and style into your kitchen.

- Slab handleless or with handles
- 18mm door thickness
- Paint-to-order colours for Matt range

## STOCK COLOURS: GLOSS

## SOFT-MATT

**TRADITIONAL RANGE**

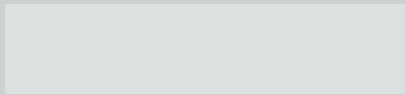

## BASTILLE

This beaded shaker door range is both sophisticated and affordable. Bastille livens space with texture and colour and can easily be complemented by a variety of accessories, handles and worksurfaces.

- Beaded shaker style
- MDF wrapped in solid uni-colour vinyl
- 22mm door thickness
- Embossed texture

### STOCK COLOURS

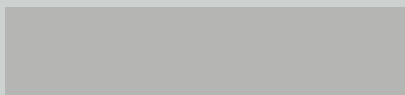

Legno White Grey

Legno Taupe

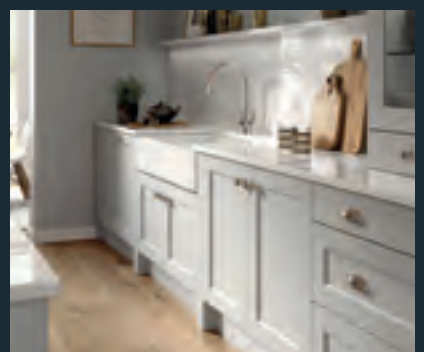

Legno Marine Blue

Legno Light Grey

Legno Dust Grey

## BROADOAK

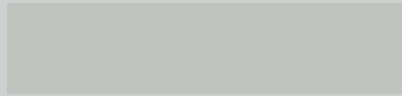

Broadoak's unfussy style and natural wood finish lends extra freedom to your design ideas, and is just as relevant to contemporary living as to a carefully styled period home.

- Shaker design
- Oak framed doors
- 20mm door thickness

### STOCK COLOURS

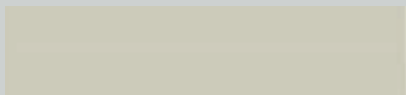

Alabaster

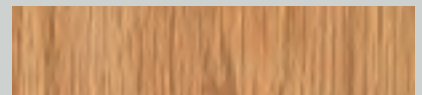

Partridge Grey

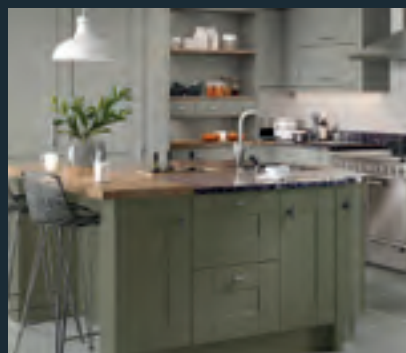

Sanded

Stone

Natural

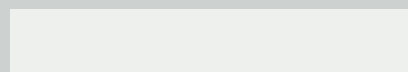

## KENSINGTON

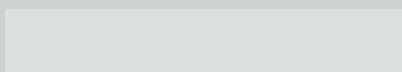

Offering a slight twist on the contemporary shaker, Kensington features a sloped internal profile on the door. Its innovative design, combined with its PVC exterior and woodgrain finish, allows you to accomplish a stunning yet affordable kitchen.

- Shaker design with v-grooves
- MDF wrapped in Alkorcell
- 22mm door thickness

### STOCK COLOURS

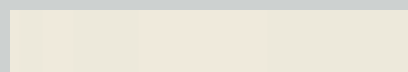

Porcelain

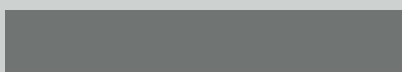

Light Grey

Cashmere

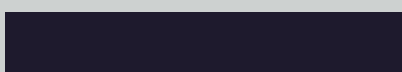

Ivory

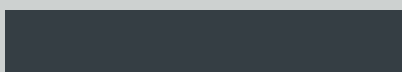

Dust Grey

Mussel

## MORNINGTON

Mornington is available in shaker as well as beaded styles, both of which offer a classic traditional look which can be combined with traditional corncicing and pelmets. Mornington doors can be complemented by a range of handles, worksurfaces and textures.

- Shaker or beaded
- Solid ash frame
- 20mm door thickness
- Matt painted with grained texture

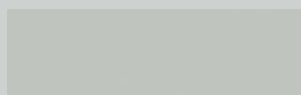

### STOCK COLOURS

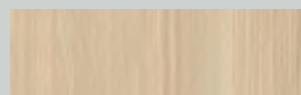

Porcelain

Dove Grey

Partridge Grey

Sanded

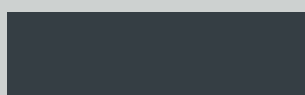

Stone

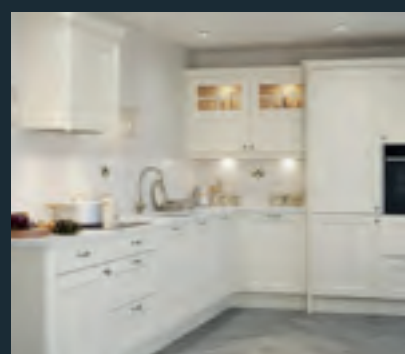

Dust Grey

Hartforth Blue

Graphite

# ACCESSORIES

# ACCESSORIES

Creating the ideal kitchen requires more than just a great range of doors. You can develop your design with accessories that facilitate tidy storage and elevate the atmosphere.

## LIGHTING

Transform your kitchen designs by incorporating a lighting scheme. From mood lighting under and above cupboards, plinth lighting to drawer HD LEDs, lighting plays roles in creating a practical and stylish workspace. We offer a collection of LED and fluorescent options.

## WIREWORLD

Some of our most popular additions include Le Mans and other space utilising accessories which make full use of compact and otherwise awkward corners of the kitchen. Wirework provides handy storage solutions. More details on next page.

## BINS

Integrated pull-out bins make waste management easy. Hidden away, they help achieve a clean and tidy kitchen.

## SOCKETS

Smart sockets which integrate into worktops are practical and trendy. This push-and-flip socket sits nicely in the worktop and can easily be used to charge devices or plug in portable appliances.

# ACCESSORIES: WIREWORK

As kitchens progress, so do innovative storage solutions and clever accessories that make your life easier. These are now becoming necessities due to their practicality and role in creating a unified cohesive design.

## PULL OUTS

The Tandem Pantry is a system with two sets of shelves to help keep your kitchen pantry organised and accessible. The intelligent pull-out technology draws the interior cabinet shelves automatically forward to provide an unobstructed view and easier access to items stored in the back. The gliding roller guide and SoftStopp technology make for a smooth open and soft-close, even with a full load of up to 83kg.

## ARENA PLUS SHELVING

This shelving system combines a sleek, modern design with ease of access to blind corner cabinets that are often underutilised. The four-arm articulation system, optional soft-close mechanism, and Arena Plus shelves ensure a smooth open and close while keeping stored items in their place.

## LE MANS

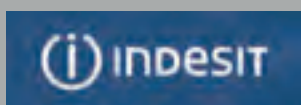

These are one of the most popular of accessories, fully utilising otherwise awkward corner cupboards, making it easy to store pots, pans and kitchen equipment. The Le Mans is also available in a taller, highboard option.

# APPLIANCES

It's easy to think that kitchens are fully evolved. However, our world is becoming increasingly smarter by the minute. Whether it is checking the fridge temperature, or sending instructions straight to your oven, Smart Home Appliances with Home Connect let your world grow – from the everyday to the not so everyday.

SOME OF THE BRANDS WE WORK WITH

## SLIDE & HIDE

Neff create appliances that are tailored to modern lifestyles and requirements. Neff's unique Slide&Hide® door fits smoothly under the oven to give plenty of room, as well as better access to the oven's interior.

## FLEX INDUCTION HOBS

Smart induction zones safely assist you with electromagnets which only heat up the base of your pans. Neff's PowerMove technology splits the hob into power levels giving you effortless control over your cooking.

## DOWNDRAFT EXTRACTORS

As well as supplying a variety of hoods and extractors from leading suppliers, we also offer the option of a downdraft hob. This works by drawing steam down through a cavity into a plasma filter which converts it into clean air.

## HOME CONNECT

Control your appliances from your phone, by connecting them with Home Connect. This allows you to set timers, check appliances and turn them on or off at your convenience.

## LOAD & GO

Front load washers with a Load & Go™ dispenser that holds 20–40 loads of detergent. If you wash five loads per week, that's up to two months worth of laundry on select models!

# HANDLES

Handles come in all sorts of shapes and sizes. They are the perfect practical detail to complete your kitchen. A range of materials such as stainless steel, brushed chrome, pewter and wood are used to craft quality handles that are used in our kitchen designs. See our website to view a full range of handle options.

# SINKS AND TAPS

We offer a range of affordable and trendy sink options as well as a variety of taps and drainers which complement your kitchen style.

# WORKTOPS

Whether you have a classic or contemporary kitchen, you will have plenty of choice when it comes to worksurfaces. From Silestone quartz to wood worktops, there are many beautiful designs which can enhance your kitchen design. You can view a full list of worktop options on our website or view samples by arranging a visit to our showroom and sales office.

SOME OF THE BRANDS WE WORK WITH

## QUARTZ

The various thicknesses of Silestone, including 12mm, 20mm and 30mm, provides a perfect solution for your worktop.

Silestone is a leader in design and architecture, supplying a wide range of colours and formats to be adapted to any project.

Moreover, quartz can be applied to upstands and downstands, and used for drainer grooves as well as supplemented by glass splashbacks behind hobs.

## TIMBER

40mm thick wood can be used to create natural looking worktops and breakfast bars.

Some bespoke works which are often carried out on timber worktops include:

Pre-Oiling - three coats applied on surface and underside, five coats on end grain.

Cut to Size - Worksurfaces cut down in both length and width to your specific requirement.

## LAMINATE

Laminate worktops are offered in 20mm and 40mm thicknesses.

All of the 20mm worktop collection is available in matching HPL upstands and HPL MDF backpanels.
